History of the biggest drops (grey line: reference mean)

Alerts from the latest run

Type	Message	Date
Abnormal price	“Set Me Free”: abnormally low price (£11.66 vs a recent mean of £16.71).	27 Oct 2026
Significant drop	“Set Me Free” is down 30.2%: £11.66 vs a recent mean of £16.71.	27 Oct 2026
Significant drop	“In Her Wake” is down 32.3%: £8.69 vs a recent mean of £12.83.	27 Oct 2026

Methodology

Polite HTTP collection (robots.txt, delay between requests, identified User-Agent, retries with exponential backoff). Prices are cleaned (currencies, separators, duplicates), validated against a pydantic schema and stored in SQLite through SQLAlchemy. Gap: latest price compared with the mean of the observations in the trend window. Anomaly: absolute z-score of the latest price, computed against prior history, above the threshold. Trend: slope of a linear regression over the window.
